Written Comments:	My water and sewer bill is already too high. Your management of water in the Stringfellow Park is atrocious.

Written Comments:	I am not supportive of a rate hike. I'd like to see the current budget better leveraged. Additionally, seeking feedback on a rate not yet established but supposed to be effective July 1st feels less than well managed. Megan

Written Comments:	<p>When will it end? Your organization continues to increase costs for us private citizens and it feels like there is no end in sight? Within the last 2 years I have seen your charges increase by 20% an unsustainable level for our middle income family, can only wonder what this is doing to lower income folks? We have no option to change our water/sewer provider but you seem to be able to increase our costs w/o our ability to dispute them.</p>

Written Comments:	<p>I was at the original meeting's when our rates were excellent, and service to boot. When someone on the board stated rates haven't kept up? So instead of a nominal increase, the board decided to triple our rates almost overnight. Same water quality and service as before. So I understood the need for infrastructure updates, but now we are paying 10 times more. Unbelievable, the combined agencies were to save us money. Now you consistently want to raise our rates again and again. Not right or necessary. The old board spoke of mismanagement, about why are rates then we're so cheap. Now you are doing the same but just the opposite. Mismanagement has caused a many of company to go</p>

under, you think can just keep raising rates. Not a chance, the system will break. The whole original idea about the merger was to lower rates and keep them stable for the long haul, please don't let your neighbors down.

Board of Directors, Oak Lodge Water Services

My name is Araine "Pinky" Lacey Scott.

I am the owner of the Bomber property on McLaughlin Blvd.

I am writing this as a request that you consider your coming rate adjustment. I currently don't use the water provided by your agency because I have a deep well on the property. However, I have the capability to use the water you provide if I need ~~it~~ that.

Please consider keeping any rate adjustment at this time due to a lot of expenses that companies and citizens are facing at this time. Not only is inflation going on right now, but P&E just raised their rate by 7% in January. Now, I understand they intend to raise their rate by 14% in the coming January.

Thank you for reading this and considering my concerns.

Araine Scott

Written Comments:	You raise rates co tinuously, and yet customers get nothing in return. Yoyr raising rates to the point that no one will be able to afford water and sewer. Our church is poor and so is our Archbishop, and we can barely pay the rates now. Seems like your ultimate goal is to force water and sewer shut off and leave people destitute. Why? Water Service is poor, staff rude and unfriendly, and when we ask for help, we get no help.
