## 2017-2018 BUDGET SCHEDULE

- January 17, 2017 - Appoint Budget Officer
- March 21, 2017 - Approve Budget Schedule
- April 6, 2017 - Publish notice of Budget Committee Meeting (5-30 days prior)
  - Publish in the Clackamas Review
  - Post on website
- April 18, 2017 - Budget Committee Meeting - Introduction and overview
  - Budget Committee Member Appointments
  - Proposed Budget given to Budget Committee
- April 25, 2017 - Budget Committee Meeting
- May 2, 2017 - Budget Committee Meeting (if necessary)
- May 9, 2017 - Budget Committee Meeting (if necessary)
- June 7, 2017 - Publish Notice and Summary of Budget Adoption Hearing
- June 20, 2017 - Budget Adoption

#### Members of the Budget Committee:

Thank you for taking your time to participate in the budget process for the Oak Lodge Water Services District. I am pleased to present the first Oak Lodge Water Services proposed budget for 2017-2018 fiscal year to the Budget Committee for consideration and approval.

In May 2016, voters in the District passed a measure to consolidate Oak Lodge Water District and Oak Lodge Sanitary District into a single district. In January 2017, Oak Lodge Water Services (OLWS) became the new single District. OLWS will continue to provide safe drinking water, efficient sanitary sewer service, watershed protection, and outstanding customer service to the rate payers of the district.

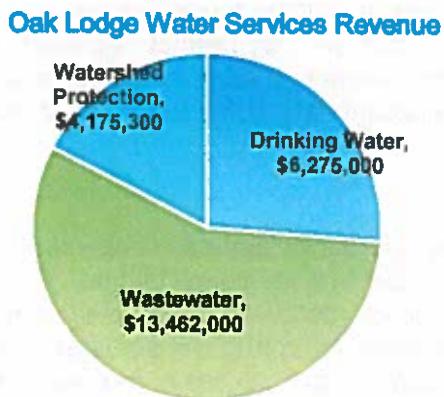

Currently, the District is working hard to bring the two administrative offices together. In that endeavor, staff from both offices created this budget. An important area in blending the two budgets, was forming a chart of accounts for the general ledger. To keep the monies of the three services separate, it was decided to form three operating funds. Keeping with the idea of "water" services, they are the Drinking Water Fund, the Wastewater Reclamation Fund, and the Watershed Protection Fund. There are also two debt service funds related to the wastewater reclamation facility. As we move through this first budget cycle we will be working through our new combined chart of accounts and make adjustments as to how everything fits together within the materials and services category.

#### Budget Highlights

The total 2017-2018 Fiscal Year Budget for OLWS in the amount of \$29.5 million including contingencies and reserves can be summarized as follows: \$6.3 million for Drinking Water, \$13.4 million for Wastewater, \$4.2 million for Watershed Protection and \$5.6 million for Debt Service. Administration is noticeably absent from this budget. This is because it is spread among the three service areas. Personnel is allocated according to the duties of the position. All other administrative expenses are distributed by a number of methods, including percent of revenue, number of FTEs, or just evenly, depending on the circumstance of the expenditure.

The proposed budget represents a prudent and fiscally responsible financial plan for the District operations and capital improvements during the next fiscal year. The budget was assembled to ensure the long-term financial stability of the District.

Operating revenue is budgeted by service (or Departmental) funds, the Drinking Water Fund, the Wastewater Reclamation Fund and the Watershed Protection Fund\*:

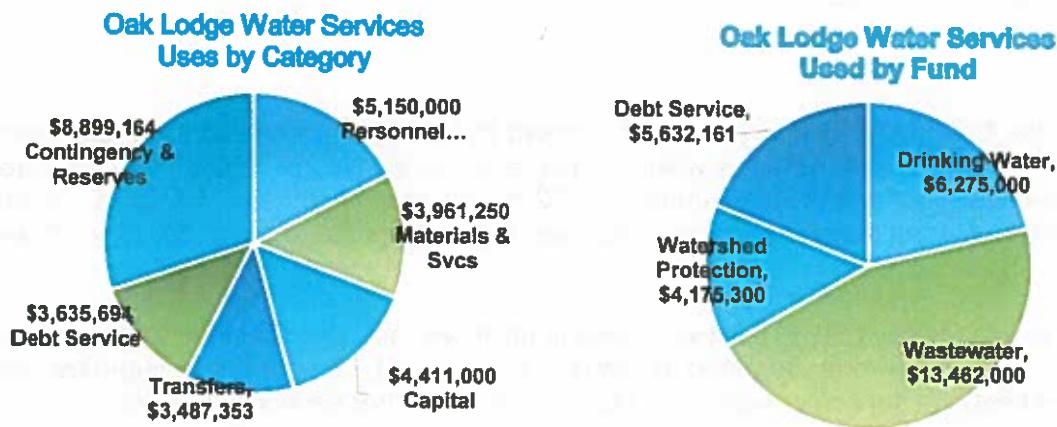

\*Chart includes beginning fund balances.

Of the total operation resources, Wastewater represents 56% of the revenue for OLWS; Drinking water 26%; and Watershed protection 17%. The resources from each department will be kept separate to be spent on operations and capital directly related to the fund where it is collected.

OLWS is a Special District financed through fees for services. Fees for wastewater and watershed protection are set in July each year according to budgetary needs in operations of the services and capital improvement projects in both areas as well as debt service payments. Fees for drinking water set in January of each year and are also based on the needs of the operations and capital improvement projects that are water specific. This proposed budget has a 3.35% increase in the wastewater fees, and a 4% increase in the service charge portion of the water fees. It is proposed that water consumption fees remain the same.

Operating Expenditures are budgeted by category with each fund. Below are two charts; one showing expenditures by category in all funds combined, and one showing expenditures by fund:

Aside from Contingencies and Reserves, personnel services, at 17.4%, take up the largest portion of the budget. This is to be expected for a mostly service based organization such as OLWS. This is followed by capital, at 14.9%, then materials and services at 13.4%. Next, is debt services at 12.3% and interfund transfers at 11.8%. Transfers include transfers from the Wastewater Fund to both Debt Services Funds to cover the cost of debt. These transfers do not represent additional dollars, but represent the movement of cash between funds.

### *Personnel*

OLWS proposed budget includes 34 full-time regular (FTE) positions. Personnel cost for the fiscal year represent proposed increases for the former Water District field staff to bring them up to the market rate and match the former Sanitary District field staff. It also includes increases for most of the administration staff to bring them to a level set by the board of directors. The propose budget also includes cost of living allowances and 3% to 4% merit increases for eligible employees.

### *Materials and Services*

This category represents the operations and day-to-day activities. This category is where we may see the most change as we move into full consolidation. This year we will be consolidating the administrative staff and computer operations into one system. Since some of the specifics are yet to be determine, as well as the dates for combining services, it is our best guess as to how many of the categories may change moving forward. Some of the areas expected to be affected are in communications, technology and insurance. We can also expect to see savings in utilities and other office expenditures as we bring everyone under one roof.

### *Capital*

A new Water System Master Plan to provide an assessment of the District's water distribution system and guide the District for the next ten years, will be the major project for the Drinking Water Fund in the 2017-2018 year. The budget also includes new SCADA radios, a hydraulic breaker, a soft start motor control unit, one-third share of new financial software, and funds to complete the Valley View tank upgrades that were not completed during the 2016-2017 fiscal year.

The Wastewater Fund has \$1,525,000 budgeted for capital projects. This includes one-third share of the new financial software, and \$900,000 for the administration building remodel. The balance of \$575,000 are for projects from the capital improvement plan.

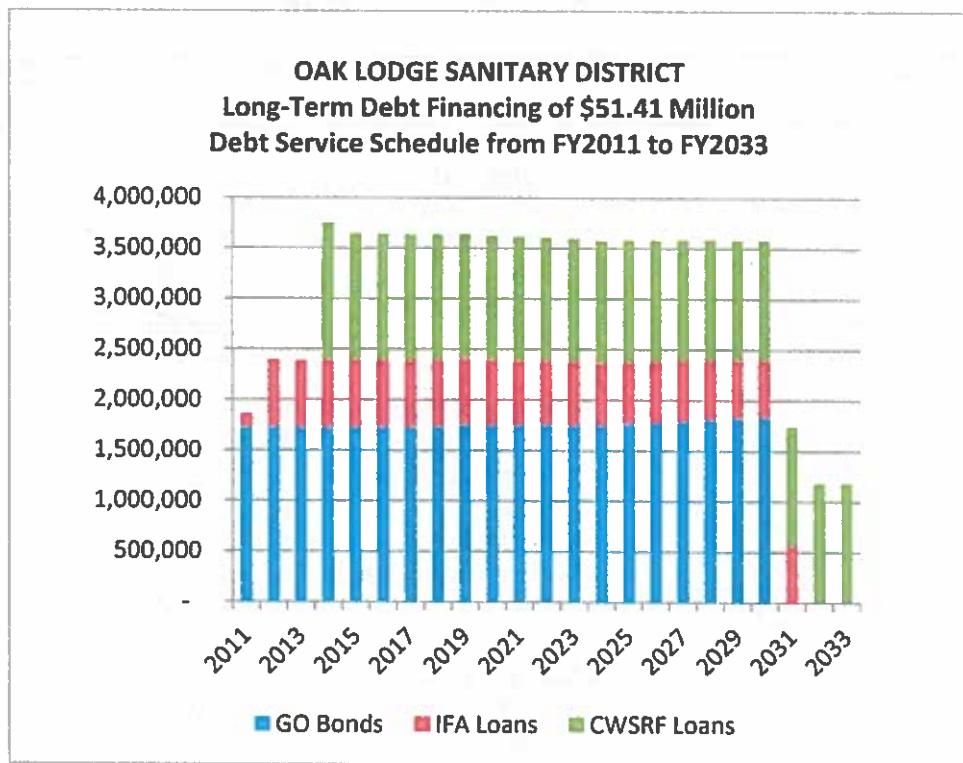

The final third of the financial software is funded through the Watershed Protection Fund. This fund also has \$1,871,000 to fund projects from the capital improvement plan including the Boardman Wetland Complex Project.

### *Debt*

In 2010, the Oak Lodge Sanitary District borrowed \$51 million to construct the Water Reclamation Facility (WRF). The debt entails a weighted average interest rate of 3.09%. The average annual debt service requirement is approximately \$3.62 million each fiscal year. Excluding Interfund transfers and federal interest subsidies, debt service is estimated to be 41.8% of the Wastewater revenue.

Debt financing for the WRF project was used to minimize increases in service charge rates which would have otherwise been required to cash fund the project. This practical approach allowed the District to keep the service charge rates competitive with other service providers.

Moving forward the debt will continue to be paid only by Wastewater revenue. The following table shows the long-term debt service schedule:

#### Acknowledgements

This proposed budget was developed with input and great effort from the OLWS staff. The development of our new general ledger coding and consolidating the sanitary and water line items into the appropriate line was a huge task. I want to acknowledge their effort and engagement in the process and thank everyone for their dedication to making this a successful process.

Respectfully submitted,

Kelly Stacey  
Budget Officer

## **Drinking Water Fund Fund 10**

**Purpose:** The purpose of the Drinking Water Fund is to manage operating and capital requirements related to activities of the drinking water program.

Drinking water activities comprise managing a water transmission and distribution system.

The water comes from the Clackamas River. The Clackamas River is an extremely high-quality, raw water source. Timothy Lake and the Ollalie Lake make up the head waters of the Clackamas River. These lakes are located high up in the Mount Hood National Park area. Along with the lakes, there are many other small tributary mountain streams that contribute to the flow of the river.

Drinking water for the District is pumped into a water treatment plant then placed through two different treatment techniques: slow sand filtration and membrane filtration. The Allen F. Herr Water Treatment Facility began production in August 1999. Prior to the building of the treatment plant, Oak Lodge Water District purchased water from another provider. Oak Lodge Water Services is now part owners of the treatment plant along with Sunrise Water Authority and the City of Gladstone. This makes up the North Clackamas County Water Commission.

The water from the treatment plant is then pumped to the water reservoirs located at Valley View and View Acres.

The goals of the program include the following:

- Educate residents, developers, contractors, businesses, industries, and youth about watershed protection.
- Efficiently meet the drinking water collection, transmission, and distribution needs of the community through uninterrupted service delivery.
- Protect community health.
- Provide safe drinking water to the community.

## **Wastewater Reclamation Fund Fund 20**

**Purpose:** The purpose of the Wastewater Reclamation Fund is to manage operating and capital requirements related to activities of the wastewater reclamation program.

Wastewater reclamation activities comprise managing a wastewater collection system totaling 100 miles in length, five strategically located wastewater pumping stations, and a reclamation facility that reclaims an average of 10.5 million gallons of wastewater per day. In a given fiscal year the District collects, treats, and reclaims more than 1.0 billion gallons of wastewater.

The District holds a National Pollutant Discharge Elimination System (NPDES) Permit issued by State of Oregon Department of Environmental Quality (DEQ) that allows the District to be responsible for the management of the wastewater reclamation program in its service area. The NPDES Permit establishes mandatory water quality standards for the discharge of reclaimed water into the watershed. The main outfall point is located at the reclamation facility and discharge goes directly into the Willamette River.

The goals of the program include the following:

- Educate residents, developers, contractors, businesses, industries, and youth about watershed protection.
- Efficiently meet the wastewater collection, transmission, and reclamation needs of the community through uninterrupted service delivery.
- Provide environmental protection for the Willamette River.
- Protect community health.

## **Watershed Protection Fund Fund 30**

**Purpose:** The purpose of the Watershed Protection Fund is to manage operating and capital requirements related to activities of the watershed protection program.

Watershed protection activities comprise managing a surface water management collection system totaling 84 miles in length.

The District is a joint holder of a National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) Permit issued by the State of Oregon Department of Environmental Quality (DEQ) that allows the District to be jointly responsible for the management of watershed protection activities in its service area. The NPDES Permit establishes mandatory water quality standards for the discharge of un-reclaimed water into watersheds. Watersheds within the District service area includes Boardman Creek and River Forest Creek but discharge also occurs into Kellogg Creek and Rinearson Creek. All watersheds, or portions of watersheds, ultimately discharge to the Willamette River.

The goals of the program include the following:

- Educate residents, developers, contractors, businesses, industries, and youth about watershed protection.
- Protect local watersheds through planning, permits, and regulations.
- Minimize, or eliminate pollutants that may impair the proper functioning ecological condition of the areas rivers, lakes, and streams.
- Operate, maintain, control, and regulate the negative impacts of surface water and storm water runoff to protect the community's health and safety.
- Where feasible, mitigate storm water impacts on public and private property during normal conditions.

## **Wastewater General Obligation Bond Debt Service Fund Fund 40**

**Purpose:** The purpose of the Wastewater General Obligation Bond Debt Service Fund is to manage debt service in accordance with required debt payments and bond covenants related to property-tax backed debt.

On November 3, 2009, the District's citizenry passed Measure 3-348 authorizing the District to issue general obligation bonds for up to \$44,000,000 in debt financing. General obligation bond debt financing generally secures better financing terms than revenue bond debt financing alone because general obligation bonds are authorized by the citizenry and may be repaid through property tax assessments. The District intends to repay all debt financing related to wastewater facilities through sanitary sewer service charge revenue; however, with the authority granted by its citizenry, the District may repay general obligation bond debt through property tax levies in the event sanitary sewer service charge revenue does not support debt repayment and covenant obligations of the District.

There are two issues of property-tax backed debt, including the following:

### **1) General Obligation Bonds**

On May 13, 2010, the District issued \$24,000,000 in General Obligations (GO) Bonds. The bonds will be repaid over a twenty-year term to maturity and the range of coupon rates associated with the bond series is 2% to 4%. The total interest cost of the entire bond series to maturity is 3.72%.

### **2) State of Oregon Infrastructure Financing Authority Loan**

On August 31, 2010, the State of Oregon Infrastructure Finance Authority (IFA) loaned the District \$8,000,000 which originated from the state's issuance of Recovery Zone Economic Development Bonds. These are also known as United States Build America Bonds. The bonds are property-tax backed bonds. The debt was issued at a premium in the amount of \$23,749. The premium is being amortized straight-line over the debt issue's term to maturity. The bonds will be repaid over a twenty-year term to maturity and the range of interest rates associated with the bond series is 2% to 2.84%. Of the amount borrowed 87% of the debt qualifies for a 45% interest subsidy from the United States Treasury. The total net interest cost of the entire bond series to maturity is 2.71%.

## **Wastewater Revenue Bond Debt Service Fund Fund 50**

**Purpose:** The purpose of the Wastewater Revenue Bond Debt Service Fund is to manage debt service in accordance with required debt payments and bond covenants related to non-property tax backed debt.

There is one issuance of non-property-tax-backed debt, including the following:

### **1) State of Oregon Department of Environmental Quality Clean Water State Revolving Fund Loan**

In fiscal year 2011, the District was awarded loans up to \$19,409,645 by the State of Oregon Department of Environmental Quality Clean Water State Revolving Fund (SRF) Loan Program for Intended-Use Plans. The District accepted and received \$19,000,000 of the proceeds and declined the remaining amount that was available. Of the amount borrowed, \$12,573,566 or 66% of the funds comprised federal capitalization grant funds, whereas the remaining \$6,426,434 or 34% of the funds comprised state funds. The loans will be repaid over a twenty-year term to maturity and the range of interest rates associated with the loan series is 0% to 2.65% plus an annual administrative fee of 0.50% of the principal balance. The total net interest cost of the entire loan series to maturity, including the administrative fee, is 2.45%.

The program has a loan reserve requirement in which the District must place in reserve an amount equal to one-half the average annual debt service; as a result, the District has established a legal reserve amount of \$590,483 to satisfy legal loan reserve requirements.

The program has a debt service coverage requirement in which the District must maintain wastewater rates and charge fees in connection with the operation of the facility that are adequate to generate net operating revenues in each fiscal year sufficient to pay all revenue backed debt service requirements. Net operating revenues are defined as gross revenue less operating expenses. Operating expenses are defined as direct and indirect expenses related to the operation, maintenance, and repair activities of the District, including an appropriate amount for reserves for repair and replacement of facilities and equipment based on management's estimates of expected useful life of capital assets. Net operating revenue coverage must be equal to the debt service coverage factor of 105% multiplied by the debt service payments due under the loan agreement plus all other debt service. The program also requires a legal loan reserve equal to one-half of the average annual debt service of the loan.

## Oak Lodge Water Services District Fiscal Year 2018 Budget

### **DESCRIPTIONS**

| <b>Account #</b>               | <b>Description</b>  | <b>Fund 10<br/>Budget</b> | <b>Fund 20<br/>Budget</b> | <b>Fund 30<br/>Budget</b> |
|--------------------------------|---|---------------------------|---------------------------|---------------------------|
| <b>MATERIAL &amp; SERVICES</b> |   |                           |                           |                           |
| <b>6110</b>                    | <b>Legal services</b><br>The purpose of Legal line item is to provide the necessary funding for legal expenses associated with District operations.   | 40,000                    | 40,000                    | 20,000                    |
| <b>6120</b>                    | <b>Accounting and audit services</b><br>The purpose of the Accounting and Audit Services line item is to provide funding for required annual financial audit services which are necessary to comply with the state's statutory requirements for public agency audits.   | 9,000                     | 10,000                    | 6,000                     |
| <b>6130</b>                    | <b>Engineering services</b><br>The purpose of the Engineering Services line item is to provide funding for a variety of outsourced services including planning and engineering studies, technical assistance, and research and development. Services are outsourced for numerous reasons primarily driven by the need for efficient and effective use of resources. As a relatively small organization, it is financially infeasible from a cost/benefit justification standpoint to employ expertise in all the myriad of disciplines with which the District must address on a regular basis.   | 27,000                    | 54,000                    | 17,500                    |
| <b>6140</b>                    | <b>Administrative services</b><br>The purpose of the Administrative Services line item is to provide funding for administrative services that have been contracted out to third parties. Services are outsourced for numerous reasons primarily driven by the need for efficient and effective use of resources.  | 15,000                    | 20,000                    | 4,000                     |
| <b>6150</b>                    | <b>Contract meter reading</b><br>The purpose of the Contract Meter Reading line item is provide funding for the reading of water meters. Water meter reads determine the quantity of water used by customers and serve as the basis for drinking water and wastewater reclamation fees owed to the District.  | 20,000                    | 20,000                    | -                         |
| <b>6170</b>                    | <b>Contract lab services</b><br>The purpose of the Contract Lab Services line item is to provide the necessary resources to fund laboratory testing services, which are more cost-effectively provided through outsourcing. These services include testing that would require substantial capital investment in equipment which would be used very sparingly, and which would require intensive ongoing staff training. Included in the tests are complex nutrient and heavy metal analysis as required by the District's National Pollutant Discharge Elimination System Permit issued by the United States Environmental Protection Agency and Oregon Department of Environmental Quality | 7,000                     | 33,000                    | 15,000                    |

## STATEMENT OF CHANGES IN ACTIVITIES and SOURCES OF FINANCING

Oak Lodge Water Services District formed January 1, 2017 with the consolidation of two formerly separate special service districts known as Oak Lodge Water District and Oak Lodge Sanitary District. The notice of budget hearing here includes figures for the proposed budget beginning July 1, 2017 but not the current fiscal year from January 1, 2017 to June 30, 2017 or a previous fiscal year because the District was not required to adopt a budget for its very first fiscal year and there was no prior year on which to report prior year actuals. Oak Lodge Water Services District's major source of revenue are its service charges. The District's budgeted service charges must grow about 4% from its legacy districts' previous years in order to ensure gross revenues are exceeding operating expenses and positively covering ongoing debt service and related coverage covenants while also providing a means to accumulate cash resources for capital outlay expected in both the short and long term future. The District is confident it can anticipate favorable financial results and a resulting financial position in fiscal year 2018 despite general local economic uncertainty.

## PROPERTY TAX LEVIES

|  | Rate or Amount<br>Imposed | Rate or Amount<br>Imposed | Rate or Amount<br>Approved |
|--|---------------------------|---------------------------|----------------------------|
| Permanent Rate Levy (rate limit per \$1,000) | \$0                       | \$0                       | \$0                        |
| Local Option Levy                            | \$0                       | \$0                       | \$0                        |
| Levy For General Obligation Bonds            | \$0                       | \$0                       | \$0                        |

## STATEMENT OF INDEBTEDNESS

| LONG TERM DEBT                      | Estimated Debt Outstanding<br>on July 1, 2017 | Estimated Debt Authorized,<br>But Not Incurred on July 1, 2017 |
|-------------------------------------|---|--|
| General Obligation Bonds            | \$23,820,870                                  | \$12,000,000   |
| Other Borrowings (i.e. Bonds/Loans) | \$15,985,856                                  | \$36,000,000   |

### STATEMENT OF CHANGES IN ACTIVITIES AND SOURCES OF FINANCING

Oak Lodge Water Services District formed January 1, 2017 with the consolidation of two formerly separate special service districts known as Oak Lodge Water District and Oak Lodge Sanitary District. The notice of budget hearing here includes figures for the proposed budget beginning July 1, 2017 but not the current fiscal year from January 1, 2017 to June 30, 2017 or a previous fiscal year because the District was not required to adopt a budget for its very first fiscal year and there was no prior year on which to report prior year actuals. Oak Lodge Water Services District's major source of revenue are its service charges. The District's budgeted service charges must grow about 4% from its legacy districts' previous years in order to ensure gross revenues are exceeding operating expenses and positively covering ongoing debt service and related coverage covenants while still providing means to accumulate cash resources for capital outlay expected in both the short and long term future. The District is confident it can anticipate favorable financial results and a resulting financial position in fiscal year 2018 despite general local economic
